

CODE-LAYOUT, READABILITY AND REUSABILITY

Field	Details
Date	29/09/2026
Team ID	6ab4cbbb0fc666a751b50cda
Project Name	AI-Augmented Backend Development AI FitTrack API
Maximum Marks	5 Marks

S.No	Code Quality Parameter	Status	Remarks
1	Consistent Indentation	To verify	Source code not supplied for direct inspection.
2	Proper File Structure	Yes (documented)	Separate models, controllers, routes, middleware, services and configuration are described.
3	Meaningful Variable Names	To verify	Requires source-code inspection.
4	Function / Method Names	To verify	Requires source-code inspection.
5	Code Comments	To verify	Inline source comments cannot be confirmed.
6	Modular Design	Yes (documented)	MVC/layered architecture is described.
7	No Redundant Code	To verify	Requires source-code inspection.
8	Error Handling	Yes (documented)	Centralized error handling and validation are described.

Reusable Components / Modules

S.No	Component / Module	Technology	Where Reused	Level
1	Authentication Middleware	JavaScript / Express	Protected APIs	High
2	Gemini AI Service	JavaScript / Node.js	AI recommendation and insights	High
3	JWT Service	JavaScript / Node.js	Authentication	High
4	Password Service	JavaScript / bcrypt.js	Registration and login	High
5	Database Connection Module	Node.js / Mongoose	Application startup/database access	High

Overall Code Quality Assessment

Aspect	Rating	Comments
Code Layout & Structure	4 (documented architecture)	Clear modular MVC/layered structure is described.
Readability	To verify	Requires source-code inspection.
Reusability	4 (documented)	Dedicated middleware and service layers are described.
Documentation / Comments	4 (project documentation)	Project documentation is detailed; inline comments not verified.
Overall Score	To be finalized	Final score should be assigned after source-code review.
